

PROGRAM CAPABILITIES

Tuesdays and Thursdays we can accommodate up to 3 classes (approximately 75 students), while Wednesday and Fridays our maximum capacity is 2 classes or up to 60 students.

Each class is assigned ONE Bubolz Naturalist to lead your class through activities.

CHAPERONE POLICIES

We allow 5 chaperones free of cost per classroom attending a field trip. If there are more than 5 chaperones per class, there will be an additional attendance fee per additional adult.

The exception to this is GPS/Geocaching and any Survival program where 1 adult is required for each small group.

As a reminder, it is chaperones, teachers and paraprofessionals job to aid students on field trip days. This can range from assisting students with tasks, to redirecting and correcting students. Our naturalists are versed in classroom management strategies; however, their main task is guiding students through activities exploring the natural world around them. If there is anything you would like our staff to know in preparing for your class, please let us know!
